

LIVON[®]

Make Your Life Better

2018

Since 1976 42th Anniversary **VALUE**

We, a company with 42 years of manufacturing experience, offer you great **service of integrated design & manufacturing.**

TONGTENG, was founded in 1976 as a manufacturer of electrical shaver. Since 1980, we have devoted ourselves to researching and developing various electrical products for housewares and giftware, and from then on, we became a professional manufacturer and exporter. In each year between 1980 and 1988, our company grew and expanded rapidly, thus in 1988 we moved to new factory in His-Chih, New Taipei City.

We have 10,800 sq-ft of manufacturing facilities in Taiwan. Our center satellite working system and express system guarantee quality, competitive prices and prompt delivery. In 2005, we set up a 63,000 sq-ft new factory in Dongguan, Guangdong, China. With better facilities in our current plant, the work force has been increased to 200, including highly qualified engineers, technicians and workers. Also, we have 6 assembly lines, 10 high speed injection machines, 4 spraying stations and 4 pad printing stations. Our production capacity is 300,000 pcs/per month.

For a number of years, we have been specializing in design and manufacture a wide range of electrical products, some of which include housewares, giftware and ODM products. We also accept customers' own designs and specs, and can handle them quickly and efficiently.

If you are an international buyer eager to find the best electrical premium to meet your customers' needs, then we are your best choice.

we are the BEST !

TONGTENG passed ISO9001:2008, ISO13485:2003 international quality system attestation and ISO14001:2004 Environmental management system certificate.

BRAND STORY

42 years ago, it all began from an electronic appliance store at a street corner...
In the beginning, it was just mainly for the family, and then it evolved into servicing the neighborhood.

Then transitioned into a factory by chance...and we began to produce our very first model lint remover.
Today, at our 42th anniversary, we still maintain and stay true to our company policy of making high quality products, and we also infused new life, new ideas and new future into our product lines.

We have the passion for design, the insistence of making high quality products and a deep awareness for our environment. By combining the essence of the words "Living" and "Creation", we founded our brand "LIVION". The beauty of the "Creative Life" is what we want to express and the core concept of our brand "LIVION".

Through our 5 main product lines "Clothes Care", "Cool Summer", "House Clean", "Health Beauty" and "Bright Life", we have developed various electrical products such as our "lint remover", "USB Desk Fan", "Mini Vacuum", "Mini Massager" and "USB LED Lamp", etc. Our goal is to instill the beauty of design into our lives.

[We wish to share our efforts through all these years with everyone, and will keep continuing on with the "Taiwanese spirit" ... "LIVION" is the brand created for the next generation, to enrich your life to the fullest with "Living" & "Creation".]
